ANOTHER G. O. P. FARCE

Sublime farce was staged last week in dry cause. the office of Governor Willis in hearing of charges against Democratic License Commissiotner Byron M. Clendenning for activity in the matter of the referendum on the McDermott law. This was in the face of Mr. Clendenning's plea that he had done what he could in behalf of the referendum which as a citizen he had a to uphold the efficient Greenland law he er, they will be encouraged to force was in duty bound to do.

The effort of the governor to have Mr. er will be at their mercy." Clendenning turn "state's evidence" and implicate a Republican member was futile, the accused telling the governor that convict a Republican he would have to get Republican testimony.

Ex-Senator Beid prosecuted the charge of W. lis, was accused of had faith and double dealing, but resented the implica-tion. He denied that he expected an ap-pointment of Governor Willis or that he

perfy appeal to the supreme court for a fair bearing.

It is evident that this farce is staged for effect: that Willis knows of the ac-tivity of his listeners and still winks at that activity; that his action now as were his actions when the petitions were start-ed are taken at the elevanth hour when he can make a great noise without af-fecting the issue, and that Clendenning makes a poor "goat". Willis simply wants to be able to say that he has been forced to become the "chief sajoon keep-er in the state" when he done the white apron the day after election.

MORE POVERTY

So great has been the tide of gold poured into New York to pay the war bills of the belligerent nations that the task of melting it to be turned over into United-ed States coin has almost overwhelmed the employes of the United states assay office there. They are working longer than they ever

did before, but the piles of coin in bution deposited by the bankers grows inlead of diminishing. No sooner is one onsignment melted and sent to Philaelphia than another shipment of million are received.

Is received.
For two Sundays the whole force of the greaty office has worked to keep ahreast of the incoming gold.
Ordinarily about \$196,000,000 passes through the assay office in a year. Since July 1 the office has received and melted more than \$82,000,000 worth, and nearly \$18,000,000 was received within the last ten days. Nearly a year's work has been done in less than four months.
The gold arrives generally in the form of builton. English soverigas French Napoleons and Japanese yen.

THE FARMER VOTE **DECIDING FACTOR**

Full Rural Vote Means That Ohio Will Go Dry.

ARE ON DEFENSIVE

Pig Registration Means Heavy Vote In the Cities, but Drys Will Poll Their Full Vote in Municipalities, and a Full Vote In Farming Districts Will Make Ohio a Dry State.

Columbus, O .- (Special.) -The result of the wet and dry election in Ohio next week depends largely on the farmer vote.

If the rural sections poll a full vote the state will go dry, assert Prohibition leaders, while the wets admit they are pinning their hope of victory to a full wet vote in the large cities and a big stay-at-home vote in the country and smaller municipalities.

The registration is heavy in Cleveland and Cincinnati-heavier than in any previous year. There is a slight decrease in Columbus, Toledo and Dayton as compared with last year, but an increase over the registration in these cities two years ago.

Is there fraudulent registration in Cincinnati? It is significant that Cincinnati with 265,000 less population than Cleveland has registered within 13,000 as many voters. Every precaution is being taken to insure an honest election in Cincinnati and other cities. Deputy sheriffs selected by the drys will be on duty.

The drys in the cities worked systematically to register all their voters and many observers believe the heavy registration will be beneficial to the

It is imperative that every dry citizen in the country goes to the polls. As A. L. Taber, master of the Ohio State Grange, says, "It is far more important for every farmer to be at the polls this year than at any other election. If the liquor interests win right to do, and as an official under oath through the indifference of the farmother issues in off years and the farm-

Dry voters all over the state should make it a point to go to the polls early, urge dry leaders. Not only should they vote early, but they J. H. Secrest, the former Democratic should arrange to give the day to get associate of Mr. Clendenning, who with ting the dry vote polled. Get in touch with your local dry organization and if you are not needed for work in your own precinct all day, put yourself at the disposal of your committee and work under its direction and go anywhere it sends you. It will have a good effect if a number of dry workers are at every polling place when the polls open. Women can do effective work in every election precinct, and hundreds are preparing to give the entire day to the cause.

> Voters will need to be careful of their ballots this year. In some towns a half dozen or more separate ballots are to be marked. The four proposed Constitutional amendments are on a ballot by themselves. Be sure you get this ballot, and it is suggested this ballot be marked first. Every dry voter will want to vote for Prohibition and against the brewers' Stability League amendment. The Prohibition amendment is the first of the four and the Stability League amendment in the last. Vote "Yes" on Probibition and "No" on the last. The Stability League amendment would destroy the effectiveness of the Initiative and Referendum.

Public debt of Canada amounts to \$106.-8 per capita, of United States amounts \$25.55 per capita.

BOOZE "GOT" FAMOUS INVENTOR

Charles H. Richards, once a widely reregarized inventor, but now broken down
and destitute, pleaded guilty the other
lay in the court of special sessions to a
charge of petit larceny. He received a
suspended sentence. Justices O'Keefe,
Fleming and Freschi, when they heard
the story of the man's life, gave him
noney to return to his old home in North
Adams, Mass.
Probation Officer Russell, who had
charge of the case, surprised the justices
when heltoid them that Richards was at
me time one of the most widely known
dectricians in the country, the invenor of electrica lappliances and an asoctate of Thomas A. Edison in 1880 he
went to Europe for Mr. Edison and studed the inventions of the ploneer elecricians.

ied the inventions of the pioneer electricians.

He perfected the duplex system for the telegraph, by which two messages could be sent on the same wire at the same time. This work was accomplished in Edison's labratories at Menio Park in 1883. Richards was the first to start a movement to place electric wires in underground conduits and conducted the first expriments in Chicago.

Richards succumbed to the influences of whickey and three months ago left North Adams, where he had wealthy relatives, and came to this city. A few days ago he was arrested while trying to sell a telephone receiver, valued at 340 by the New York Telephone Co., to a junk dealer. The telephone, the probation officer said, was atolen by the old man with the hope that he could raise money for liquor.—New York Sun.

sition before the people of Ohio to amend Artice X, Section 2, of the Constitution, to fix the term of all county officials at four years. This proposition should be considered by the people of the state from a business standpoint, and not from from a business standpoint, and not from a professional politician's standpoint. No privately owned business concern could possibly exist if operated under the policy of completely changing its managers, foremen, and workmen every two years. Its business would be so completely disrupted that failure would result. But the county, which is a far greater and more important organization, is expected to stand such frequent and complete changes in its administration without suffering any inconventences, difficulty, or ill-effect whatever. Efficiency and instability are never joined together. It is unsless to expect such good business results where good business principles have not been first applied.

Public office should not be merely a prize awarded for political activity. It should be strictly a lusiness proposition of public affairs is the one and only consideration.

Vote 'yes' on this proposition.

X Yes Article X, Section 2 To fix the terms of all county offi-cers at four years, to provide for their election quadren-nially, and applying the amendment to incumbents.

We the undersigned, hereby endorse the above amendment for the reason that we believe that it will be the means of reducing the taxes in Mercer County, Ohlo. C. H. HOWICK.
